

# paper cup DRAGONS!

## You will need:

- paper cups (various colors)
- paper
- crepe paper
- paper fasteners
- googly eyes (optional)
- scissors
- hole punch
- glue or glue stick
- markers, pencils, or crayons

1 Ask an adult to help cut the bottom out of all your cups.

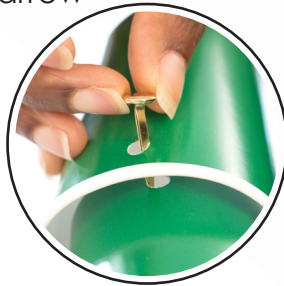

2 Choose a cup for the head. Set it aside.

3 Punch a hole at the top and bottom of one side of a 'body' cup. Punch matching holes on the opposite side.

Repeat with the other 'body' cups.

4 Pick up your 'head' cup. Punch 2 holes at the wide end of the cup, just like on the 'body.' No holes should be punched at the narrow end.

5 Assemble your dragon by connecting the cups with paper fasteners. Slide the narrow end of one cup slightly inside the wide end of another so the holes line up. Insert a paper fastener through both holes and secure it.

Repeat until all the cups are connected.

6 Decorate!

Add crepe paper flames, draw on scales, attach paper legs, maybe some teeth?
