

# MOSAICS!

What is a mosaic? It is a picture or pattern created by arranging together small colored pieces of material, such as stone, tile, glass, or in our case, paper!

Throughout history people all around the world have created mosaics to worship, record history, and as decoration.

- ① Choose a sheet of paper for your background. You may want to do a quick sketch so you know where the different colored paper scraps will be glued.
- ② Cut or tear small pieces of colored paper, pages from magazines, wrapping paper, or other paper you have at home.
- ③ Glue on different colors of paper scraps to fill in your design!

## You will need:

- paper in many colors
- glue or glue sticks
- scissors

Watch a video of a paper mosaic being made on the Cary Library YouTube channel.
