

### You will need:

- orange and green paper
- green pipe cleaner
- scissors
- hole punch
- leaf template

# paper strip PUMPKIN

- 1 Cut out the pumpkin leaf template.
- 2 Trace & cut out two green leaves. Punch a hole near the 'stem' on each.
- 3 Cut 10 or 11 strips of orange paper, approximately 1 inch wide and 11 or 12 inches long.
- 4 Punch a hole at both ends of each orange strip.
- 5 Stack the orange paper strips. Slide a pipe cleaner through the holes on one end. Bend the end of the pipe cleaner to keep the strips in place.
- 6 Curve the paper strips and slide the pipe cleaner through the other ends of the paper strips.
- 7 Slide the pumpkin leaves onto the pipe cleaner. Bend or twist the top of the pipe cleaner to create a stem (and keep the paper strips in place).
- 8 Spread out the paper strips and you have a pumpkin!
