

IT'S A ^(PAPER) ^ BLIZZARD!

You will need:

- white paper
- scissors

1 Trace and cut a circle out of white paper.

2 Fold your circle in half, and then in half again. You will end up with a pie shaped piece.

(If you're feeling adventurous, try folding it a total of four times!)

3 Cut shapes out of the sides and end. Be careful not to cut through all of either fold.

4 Unfold and admire your snowflake!

Learn a slightly different way to cut out snowflakes in our family crafts video! ↪
