CARY LIBRARY

make your own POP-UP CARDS!

Send fun home-made cards to friends and relatives!

Pop-up cards can be vertical or horizontal. Try varying the length of the cuts, or add more than one pop-up!

You will need:

- stiff paper
- scissors
- markers
- glue stick

1 Pick a card to use to make your pop-up.

2 Make two equal cuts into the folded edge.

3 Fold up the tab, then fold it back down.

4 Open your card and "pop" the tab through!

5 Draw the object (or objects!) you want to pop-up on construction paper. (Hint: make sure it fits inside the card)

6 Cut out your drawing. Glue it to the tab so it stands up when the card is open.

7 Glue your card inside another card (to hide the hole the pop-up left).

8 Add details with cut paper and markers.
