

make a RAIN STICK!

- 1 Roll up a sheet of aluminium foil & slide it into a cardboard tube.
- 2 Secure a piece of paper over one end of the tube with an elastic band.
- 3 Pour some dried beans or rice into the tube.
- 4 Repeat step 2 on the other end of the tube.
- 5 Wrap yarn around one end and tie it in place. Add any other decoration you want.

Tip the rain stick and listen to the rice falling through the aluminum foil. Does it sound like rain? What if you use beans or lentils instead of rice?

You will need:

- cardboard tube
- dried beans or rice
- aluminum foil
- paper
- elastic bands
- yarn or string
- scissors
- glue or glue stick
