

# rainbow WIND CHIMES!

1 Cut 4 pieces of string 5-6 inches long. Tie them to the metal ring.

Create a loop to hang your wind chimes by knotting the other ends of the strings together.

- You will need:**
- a metal ring string
  - buttons and beads in various colors
  - bells
  - metal washers

5 Tie your 'legs' to the metal ring. Spread them out around the ring so it hangs level.

Hang up your wind chime & enjoy!

2 For each 'leg,' cut a piece of string and tie a bell, large button or bead, or washer to the end (for weight).

4 Repeat steps 2 & 3 with the rest of your 'leg' strings.

3 Thread a needle onto one of the 'leg' strings & add more beads & buttons.

See what else you have around the house you could add!
